Railway electrification

Funding to electrify the North Transpennine route was announced November 2011 in the Government's Infrastructure Plan. The cross-Pennine rail route connects Leeds and Huddersfield with Manchester, Merseyside and the North East. Journey times between Leeds and Manchester are expected to fall from around an hour to under 45 minutes. Research (Yorkshire Transport Study) has shown that quicker journeys will boost productivity and help to build the economy of West Yorkshire and the Leeds City Region.

Electrifying the route will make it an attractive alternative to the M62 reducing congestion on an often overcrowded motorway. As many as six trains an hour will run via Huddersfield from Leeds to Manchester, and local stopping services would also benefit from newer rolling stock and reduced journey times. Electrification of the route is expected to be completed by 2018.

Kirklees 4 Business

A business support funding website for the Kirklees area is available at www.open4funding/kirklees/

Registration is required.

The Waterfront Huddersfield

Situated on the south-western edge of the town centre, Huddersfield's new Waterfront development is bordered by the A62 Manchester Road, A616 Chapel Hill and River Colne. The Waterfront is a prime commercial development opportunity, in an attractive waterside setting, less than ten minutes' walk from Huddersfield town centre. Benefiting from outline planning permission, the 1.2 hectare (3 acre) site is ready for construction now.

A section of the Huddersfield Narrow Canal has been restored and highways upgraded, as part of infrastructure works carried out by Kirklees Council with support from the Department for Business, Innovation & Skills.

Facilities

Four building plots, arranged around the canal and a proposed new public square, have outline planning permission for up to 18,100 sq m (194,200 sq ft) of Grade A office space. The consent also includes up to 390 sq m (4,200 sq ft) of retailing, a 280 sq m (3,000 sq ft) crèche (both on plot M), and 78 parking spaces beneath the square. Alternative uses, including leisure, hotel or multi-storey car park are possible, subject to planning permission.

Complementary developments

The commercial land is part of the 3 hectare (7.5 acre) Waterfront Quarter which also includes a new £74 million campus for Kirklees College, opened in September 2013 and land with outline consent for up to 309 residential units.

The HD One

Adjoining Huddersfield's award-winning John Smiths Stadium, just off the A62 Leeds Road, The HD One development is 5 minutes from both the centre of Huddersfield and junction 25 of the M62.

Kirklees Council has granted planning permission to site owners Kirklees Stadium Development Ltd to transform a 54 acre site astride the River Colne into a multi-use leisure, entertainment and sporting destination close to Huddersfield town centre. The site will build on the existing success of the stadium, the nine-screen Odeon cinema and the Kirklees Active Leisure health and fitness club, increasing expected annual visitor numbers from some 1.5m to over 4m.

The HD One will become home to a host of new activity attractions such as ten-pin bowling, open dry ski slope, indoor surf cafe and body flight. With a hotel, casino, bingo, clubs, and specialist shops, and no fewer than 21 restaurants, bars, and cafés, the scheme will transform this outer town centre area. <http://www.thehdone.com/>

These are just two examples of development opportunities in and around Huddersfield. For more opportunities visit the 'Huddersfield The Place to Make it' website <http://placetomakeit.co.uk/invest>

and North Kirklees Clinical Commissioning Group. At the same time responsibility for public health passed to Kirklees Council. The district is also served by two acute NHS hospital trusts: Calderdale & Huddersfield

NHS Foundation Trust and The Mid Yorkshire Hospitals NHS Trust (which includes Dewsbury), and one mental health NHS Trust - South West Yorkshire.

Joint Strategic Needs Assessment

From April 2013 all Health and Wellbeing Boards took over the statutory duty to work with the Council, CCGs and other partners to develop a Joint Strategic Needs Assessment (JSNA) for their district.

The JSNA provides an opportunity to look to the future – over the next 5, 10, 15 and even 20 years – so that we can start planning now for likely changes in needs. It focuses on the issues affecting the health and wellbeing of children, young people and adults in the district and how these might change over time, rather than what the Council or CCGs are currently doing to address these needs. The JSNA draws together a wide range

of information from a variety of sources, both local and national which analysed and assessed to identify the key issues for the Kirklees population. The JSNA forms the basis for planning service development and is seen as a key building block of the commissioning process.

Copies of the current 2013 JSNA summary and full document are available from:

<http://www.kirklees.gov.uk/community/statistics/jsna/jsna.html>

The JSNA is not a single, one-off exercise, but is an ongoing piece of work which will add to our commissioning “intelligence”.

Personal well-being 2012/2013

The findings reported here are based on people’s responses to these four questions. People are asked to give their answers on a scale of 0 to 10 where 0 is ‘not at all’ and 10 is ‘completely’. These questions allow people to make an assessment of their life overall, as well as providing an indication of their day-to-day emotions. Although ‘yesterday’ may not be a typical day for any one individual, the large sample means that these differences ‘average out’ and provide a reliable assessment of the anxiety and happiness of the adult population in the UK over the year. The table below compares Kirklees with the UK, though statistically, responses from Kirklees residents to the questions are not significantly different from all UK responses.

	Kirklees % scale 0-4	UK	Kirklees % scale 9-10	UK
