Railway electrification

The Government announced in June 2015 that it will delay or cut back a number of modernisation projects planned for Network Rail. Transport Secretary Patrick McLoughlin said that rising costs and missed targets make the £38.5bn plan untenable. Network Rail said the plan, which was launched last year as the “largest modernisation of the railways since Victorian times”, was too ambitious. However, on 30 September 2015 it was announced that the project would restart and that Manchester - York/Selby would be completed by 2022. The original completion date was December 2018.

West Yorkshire Combined Authority

The West Yorkshire Combined Authority is the driving force for economic growth across the Bradford, Calderdale, Kirklees, Leeds and Wakefield districts and the City of York Council area. WYCA brings together key decision-making powers into a single body, putting West Yorkshire and the wider Leeds City Region, including the City of York, in a much stronger position to tackle its shared economic challenges - including improving transport - by boosting jobs and growth.

Investment fund - Boosting economic growth through a £1/2bn economic investment fund, aligned with government investment, is the West Yorkshire Combined Authority's primary focus. To maximise their impact and potential, decisions affecting areas of policy such as land use, economic development and wider regeneration will be made in alignment with those made on transport. Projects will have differential spatial impacts across the Combined Authority area but will aid the development and delivery of individual member councils' key growth projects and future local plans.

West Yorkshire plus Transport Fund - In July 2014, the Government announced that the West Yorkshire Combined Authority had, uniquely, secured funding to establish a £1bn West Yorkshire plus Transport Fund. The Fund will comprise £600m of Government funding government over 20 years, £183m of other devolved transport funding previously secured through the City Deal and local contributions. It will underpin growth by improving the City Region's roads and railways and connecting people to jobs and goods to markets seamlessly.

Kirklees Local Plan

The Kirklees Local Plan (previously known as the Local Development Framework) is the new development plan being produced for Kirklees. This involves working out how many new homes and jobs are needed in the future for the district and allocating land to meet these needs.

The Local Plan will also set out the areas of Kirklees that need protection, including valuable open spaces, areas with high environmental quality and historic value. It will set out the infrastructure needed to make sure that any new developments are sustainable. The National Planning Policy Framework (NPPF) explains what sustainable development means in relation to planning.

The Local Plan will contain a map of the district showing where land has been identified for different uses such as housing, employment and open space. Planning policies will also be set out to make sure that development which comes forward will be sustainable. When the Local Plan is agreed and in place, planning applications will be judged against what it says. The Local Plan is timetabled to be adopted late 2017. Details of the Local Plan can be found at: <http://www.kirklees.gov.uk/business/planningPolicy/localPlan/index.aspx>

Health

Kirklees Factsheets 2015

The Kirklees district is served by one Primary Care Trust. From April 2013 responsibility for the commissioning of local health services passed to Greater Huddersfield Clinical Commissioning Group

and North Kirklees Clinical Commissioning Group. At the same time responsibility for public health passed to Kirklees Council. The district is also served by two acute NHS hospital trusts: Calderdale & Huddersfield

NHS Foundation Trust and The Mid Yorkshire Hospitals NHS Trust (which includes Dewsbury), and one mental health NHS Trust - South West Yorkshire.

Joint Strategic Needs Assessment

From April 2013 all Health and Wellbeing Boards took over the statutory duty to work with the Council, CCGs and other partners to develop a Joint Strategic Needs Assessment (JSNA) for their district.

The JSNA provides an opportunity to look to the future – over the next 5, 10, 15 and even 20 years – so that we can start planning now for likely changes in needs. It focuses on the issues affecting the health and wellbeing of children, young people and adults in the district and how these might change over time, rather than what the Council or CCGs are currently doing to address these needs. The JSNA draws together a wide range

of information from a variety of sources, both local and national which analysed and assessed to identify the key issues for the Kirklees population. The JSNA forms the basis for planning service development and is seen as a key building block of the commissioning process.

Copies of the current 2013 JSNA summary and full document are available from:

<http://www.you-kmc/partners/other/jsna.aspx>

The JSNA is not a single, one-off exercise, but is an ongoing piece of work which will add to our commissioning “intelligence”.
